

Why Should My Child Take the State Assessment?

What is my child tested on in the spring?

Each spring, schools give the statewide assessment to students in grades 3 – 10. This test provides students the opportunity to show their understanding of important skills in English language arts, mathematics, and science at their grade level.

Why is assessment important in my child's education?

There are five essential questions that we ask (and answer) in regard to student learning every day in our classrooms:

1. What do we want our students to know and do? (Effective statewide standards)
2. How will we teach them? (Effective local curriculum and instruction)
3. How will we know if they learned it? (Effective assessment)
4. What will we do if they do not learn it? (Effective intervention)
5. What will we do if they already know it? (Effective enrichment)

Effective assessment is the bridge between teaching the standards and ensuring that support is available for all students. It is a key part of student learning, and everything we do should work toward this goal.

How is this assessment meaningful for my child?

The statewide assessment is a *summative* assessment, which is just one piece of a balanced assessment system. Summative assessments are designed to give information on a student's understanding of the state's English language arts, mathematics, and science standards. When administered over multiple years, this assessment is even more meaningful because it informs you on how far your child has progressed in their learning.

Why does DEED give a statewide assessment?

First, we want to be able to inform parents, educators, policy makers, the community, and businesses how our schools and districts are performing. Second, after we have determined how our schools are performing, we want to identify schools in the most need of school improvement efforts. Third, we want to ensure there is equity in education. Our mission is to provide an excellent education to every student every day.

Why is it important for my child to participate in the statewide assessment?

Educators make decisions locally about how to teach Alaska's standards. With this in mind, the summative assessment is a standardized way to determine in a uniform manner how well your child's school and district are performing. Also, at the state level, we invest over a billion dollars in public education each year, and the citizens of Alaska have a right to know if that money is contributing to increased learning for students.

Parents have the right to make educational decisions for their child; please check with your district for more information.

More information can be found at education.alaska.gov/tls/assessments/. We also encourage you to view DEED's video on [Assessments: Why Are They Important?](#).
